

Eric Newman <[REDACTED]>

Greg has written a long series of analytical articles on the sales of the Eric Newman Collection

Mr. Newman,

I was delighted to hear of your 103rd birthday. I hope that you are happy and well.

We met once during a 'Coinage of the Americas Conference' at the ANS. I write about coins. I have won several NLG awards, including awards for 'Best All-Around Portfolio' in 2012 and in 2013. I devoted a considerable amount of time to covering the sales of items from your epic collection.

Below this message, please find URLs for the eleven articles that I have written so far about the auctions of items from your collection. Before the roster of those, I listed some relatively recent articles that relate to colonial coins and other pre-1793 items.

Admittedly, I have devoted much more time, over the years, to studying federal U.S. coins than pre-1793 numismatic items. The third, fourth, fifth and seventh parts in my series on the sales of your collection are somewhat indicative of my typical work. Even so, I hope that you will carefully read my articles on Higley Coppers, 1792 half dismes, and the Garrett-Perschke (Type 2) Quint.

Comments, both positive and negative, regarding any of my articles are welcome and would be appreciated. Are you willing and comfortable about being quoted in future articles? When will the next auction occur?

Please tell me about the activities of the EPPNES. Are numismatic research projects being funded?

Sincerely, Greg Reynolds
